1961

Day

Month

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

While I was observing the object, a single engine plane flew over. I would like to emphasize again, I know the difference between planes, and the kind of object that I saw. I also feel that this questionnaire is inadequate if the Air Force is sufficiently interested. To question me further, I would be most happy to be of any further assistance. If necessary I will take the time to show someone exactly what I saw right from the spot that it occurred. Enclosed please find my business card.

Thank you
